

# SAFETY DATA SHEET

# 1. Product Identification

Champion Brands, LLC 1001 Golden Drive Clinton, MO 64093 (660) 885-8151

Product line: CHAMPION ® Power Plus® Diesel Fuel Conditioner

Products: 4277 CAS: Mixture

**Synonyms:** Distillate fuel additive **Recommended use:** Distillate fuel additive

**Restrictions:** Do not use near heat/sparks/open flames.

**Created:** 21 July 2014 **Revised:** 23 July 2014

Emergency phone: CHEMTREC: (+1) 800-424-9300

# 2. Hazards Identification

Appearance: Clear, colorless liquid Odor: Mild hydrocarbon odor

Classification(s): Flammable Liquid, Category 3

Aspiration Hazard, Category 1 Skin Irritation, Category 3 Carcinogenicity – Category 2

Aquatic Toxicity (Chronic), Category 2

Specific Target Organ Toxicity - Single Exposure, Category 3

Target organs:

CNS – narcotic effects; respiratory tract irritation

Symbol(s):

Signal Word: DANGER

Hazard Statement(s): Flammable liquid and vapor. May be fatal if swallowed and

enters airways. Suspected of causing cancer. Causes mild skin irritation. May cause drowsiness or dizziness. Toxic to

aquatic life with long lasting effects.

Other hazard(s): Repeated exposure may cause dryness of the skin

**Precaution(s):** Keep away from heat/sparks/open flames/hot surfaces – no

smoking. Take precautionary measures against static discharge. Do not breathe mist/vapors/spray. Use in a well

ventilated area. Wear protective gloves/protective clothing. Do not ingest. IF SWALLOWED: Do NOT induce vomiting. Get immediate medical attention. IF ON SKIN OR HAIR: Take off immediately all contaminated clothing. Rinse skin

with water or shower.

Disposal: Keep out of waterways. Check local, national, and

international regulations for proper disposal

# 3. Composition/Information on Ingredients

**Hazardous Ingredients:** 

Component	CAS No.	Conc (wt%)
Solvent naphtha (petroleum), light aromatic,	64742-95-6	40 – 70
Benzene, 1,2,4-trimethyl-	95-63-6	15 – 25
Solvent naphtha (petroleum), heavy aromatic	64742-95-5	5 -15
Benzene, 1,3,5-trimethyl-	108-67-8	4 – 7.99
n-Propylbenzene	103-65-1	5 - 9.9
Xylene	1330-20-7	<3
Cumene	98-82-8	<3
2-Ethyl hexanol	104-76-7	<3
Naphthalene	91-20-3	< 3
2-Ethylhexyl nitrate	27247-96-7	< 3

## 4. First Aid Measures

**Eyes** Remove contact lenses, if worn. Rinse with running water for

at least 15 minutes, lifting upper and lower eyelids

occasionally. Seek medical attention if irritation persists.

**Skin** Remove affected clothing and launder before reuse. Wash

affected area for at least 15 minutes with soap and running water. Seek medical attention if persistent irritation occurs. Prolonged or repeated exposure may cause defatting of the

skin – symptoms include redness, dryness, cracking

**Inhalation** Remove exposed person to fresh air immediately. Restore or

assist breathing, if necessary. Get medical attention if

breathing is slow or difficult.

**Ingestion** If swallowed DO NOT induce vomiting. If vomiting occurs

spontaneously, keep head below hips to minimize the chance of aspiration. If fever, shortness of breath, congestion,

coughing or wheezing occurs, get immediate medical

attention.

Additional Info Specific Treatments Note to physician: High potential for chemical pneumonitis!

Consider gastric lavage with protected airway, or

administration of activated charcoal. Call poison control for

specific guidance.

# 5. Fire Fighting Measures

NFPA (estimated): Health – 2 Fire – 2 Instability – 0

**Flash Point** >40.5°C / 105°F

**Extinguishing Media** Foam, water spray or fog. Dry chemical powder, carbon

dioxide, sand or earth may be used for small fires only. Do

not discharge extinguishing waters into the aquatic

environment.

Unsuitable Media Do not use water jet

**Firefighting Procedures:** Keep nearby containers cool with water spray.

**Unusual Hazards** Low flash point – significant potential for flash fires. Material

will flow over water pools and may cause fire to spread. Incomplete combustion can produce carbon monoxide.

## 6. Accidental Release Measures

Personal precautions, protective equipment, and emergency procedures:

Flammable liquid – can cause flash fires from a significant distance to a source of ignition. Keep unnecessary personnel away. Wear appropriate personal protective equipment for emergency. Ventilate if released in a confined area.

Eliminate sources of ignition if it is safe to do so.

**Environmental precautions:** Avoid release to the environment. Prevent from

entering into soil, ditches, sewers, waterways or groundwater

Methods for removal: Use an explosion-proof pump to remove bulk liquid. Residual

liquid can be absorbed on inert material or evaporated with

adequate ventilation. Use only non-sparking tools.

## 7. Handling and Storage

Max. Handling Temp: Do not store or handle at elevated temperatures. See

Section 5 for flammability and Section 10 for chemical

stability

**Procedures:** Use only in a well ventilated area. Avoid breathing vapors.

Keep containers closed when not in use. Use appropriate containment to avoid environmental contamination. Vapors are heavier than air and will tend to accumulate in low areas. Avoid sources of ignition and use non-sparking tools. Avoid use in confined areas without adequate ventilation. Areas of inadequate ventilation could contain concentrations high enough to cause eye irritation, headaches, or nausea. Avoid breathing dust, fume, gas, mist, vapors, or spray. Wash thoroughly after handling. Launder contaminated clothing before reuse. Empty container contains product residue which may exhibit hazards of the product. Do no weld, heat, or pressurize empty containers. Do not re-use containers. Dispose of packaging or containers in accordance with local, regional, national, and international regulations. Store away

from strong oxidizers

**Max Store Temp:** Do not store or handle at elevated temperatures.

**Unsuitable Materials:** Avoid prolonged contact with natural, butyl or nitrile rubbers.

Other: Store in a diked area and prevent discharge into the aquatic

environment

# 8. Exposure Controls/Personal Protection

## **Exposure Limits**

#### US

## **Guidelines by component**

Solvent naphtha (petroleum), heavy aromatic (CAS # 64742-95-5)

OSHA: 500 ppm / 2000mg/m3, 8h (TWA)

EH40/2005: 500 mg/m3 (TWA)

Solvent naphtha (petroleum), light aromatic (CAS # 64742-95-6)

OSHA: 20000 mg/m3 (TWA) NIOSH: 350 mg/m3 (TWA)

Benezene, 1,2,4-trimethyl- (CAS # 95-63-6)

ACGIH: 25 ppm (TWA)

Benzene, 1,3,5-trimethyl- (CAS # 108-67-8)

ACGIH: 25 ppm (TWA)

Naphthalene (CAS # 91-20-3)

ACGIH: 10 ppm / 52mg/m3 (TWA) ACGIH: 15 ppm / 79mg/m3 (STEL) OSHA: 10 ppm / 50 mg/m3 (TWA)

Cumene (CAS # 98-82-8)

ACGIH: 50 ppm (TWA); absorbed through skin 50 ppm (TWA); absorbed through skin

Benzene, 1,2,3-trimethyl- (CAS # 526-73-8)

ACGIH: 25 ppm (TWA)

Ethylbenzene (CAS # 100-41-4)

ACGIH: 100 ppm (TWA) ACGIH: 125 ppm (STEL) OSHA: 100 ppm (TWA)

2-Ethylhexyl nitrate (CAS # 27247-96-7) OSHA (OEL): 1ppm, 8 hours (TWA)

Other Exposure Limits: Not determined

**Engineering Controls:** Use in a well ventilated area. Local and general ventilation

should keep methanol vapor concentration below permissible limits. Where exposure potential exceeds recommended limits, use a NIOSH/OSHA approved supplied air respirator as recommended. Vapors are heavier than air and will tend

to accumulate in low-lying areas.

**Personal Protective Equipment** 

**Respiratory:** Use a positive-pressure supplied-air NIOSH approved

respirator when used in confined spaces or where

engineering controls are not sufficient to limit exposure to

below recommended limits

**Eye:** Face shield or chemical splash goggles when splashing may

occur. If possible, remove contact lenses before handling

**Gloves:** Use neoprene or viton gloves. Nitrile gloves can be used –

but prolonged contact may cause the rubber to degrade

**Clothing:** Use chemical resistant pants and jackets

**Other:** Locate the nearest eyewash station and safety shower before

handling this product. Limit exposure whenever possible. Consider flammability and always use non-sparking tools.

**Hygiene:** Wash thoroughly after handling this product.

# 9. Physical and Chemical Properties

**Appearance** Clear, colorless to pale yellow liquid Mild hydrocarbon or alcoholic odor

Odor threshold Not determined Not determined Melting Point Not determined Initial Boiling Pt Not determined

Flash Point 40.5°C / 105°F (minimum; most flammable component))

**Evaporation Rate** Not determined **Upper Flammable Lm** Not determined **Lower Flammable Lm** Not determined

**Explosive Data** Vapors of this product may form explosive mixtures with air

Vapor Pressure Not determined Not determined Volatile Organics Not determined

**Density** 0.8 mg/cu. cm @15.6°C

**Solubility** Negligible Kow Not determined

**Viscosity**  $< 14 \text{ mm/s}^2 @ 40^{\circ}\text{C} / 105^{\circ}\text{F}$ 

Autoignition Point Not determined Decomposition Temp Not determined

# 10. Stability and Reactivity

**Stability** Material is normally stable at ambient temperatures and

pressures. Has low vapor pressure – vapors may form

explosive mixtures with air!

**Decomposition Temp** Not determined

**Incompatibility** Keep away from strong oxidizers. Contact with these

materials may cause violent or explosive reactions.

Polymerization Will not occur

**Thermal Decomposition** Combustion products highly dependent on conditions.

Produces carbon and nitrogen oxides. Lower oxygen environments are likely to produce more harmful particulate carbon, polyaromatic heterocycles, carbon monoxide and

other organic compounds.

**Conditions to Avoid** Flammable liquid and vapor – keep away from strong

oxidizers as well as heat/sparks/open flames/hot surfaces. Do

not store at elevated temperatures (< 50°C/122°F).

# 11. Toxicological Information

## - Acute Exposure -

**Eye Irritation** Skin Irritation Irritating to the eyes, but does not meet classification criteria. Mild skin irritant. Repeated exposure may cause dermatitis,

drying, cracking, and defatting of the skin.

**Respiratory Irritation** 

Inhalation of vapors or mists may cause irritation to the respiratory system, particularly the upper respiratory tract.

**Dermal Toxicity** 

Expected to be of low acute dermal toxicity based on component classification, though LD50 data is not available.

Absorption through the skin may cause chronic health effects.

**Inhalation Toxicity** 

Expected to be of low acute toxicity if inhaled, based on component classification, though LD50 data is not available. Acute inhalation exposure may cause narcotic effects in

central nervous system.

**Oral Toxicity** 

Expected to be of low acute toxicity if ingested, based on

component classification - ACUTE DANGER OF

ASPIRATION AND LUNG DAMAGE

**Aspiration Hazard** 

This product has a very low viscosity and may be fatal if aspirated into the airways. Do NOT induce vomiting, as this increases risk of aspiration/chemical pneumonitis. Aspiration

may be fatal.

#### - Chronic Exposure -

**Chronic Toxicity** 

This product contains trimethylbenzenes, literature data indicate that long-term inhalation exposure causes blood effects in laboratory animals – also may be linked to CNS, liver, kidney effects and arrhythmia with chronic inhaltion. This product may cause dryness or defatting of the skin, dermatitis, or may aggravate existing skin conditions. Occupational exposure to xylene vapor has caused skin sensitization in humans.

Carcinogenicity

Weak carcinogenic liver response observed in mice, but not rats when administered orally. This product contains naphthalene – a National Toxicology Progam final report states that lifetime inhalation exposure to naphthalene resulted in increases in nose tumors in rats and lunch tumors in female mice.

Mutagenicity

Available data does not suggest Mutagenicity of this product **Reproductive Toxicity** Fetotoxic effects have been observed in the offspring of rats exposed by inhalation to Solvent naphtha (petroleum) light aromatic, in presence of maternal toxicity.

**Teratogenicity** Available information does not suggest that this product is a

teratogen

- Additional Information -

**Target organ toxicity** Single Exposure – high concentrations may cause central

nervous system depression resulting in headaches, dizziness

and nausea; continued inhalation may result in

unconsciousness and/or death.

Repeat exposure (kidney, liver, blood) – available data on product and components indicates target effects in laboratory

animals.

Synergistic effects No data available Pharmacokinetics No data available

# 12. Ecological Information

# - Environmental Toxicity -

**Environmental Hazards –** Toxic to aquatic life with long-lasting effects. May cause

long-term adverse effects in the aquatic environment – based

on calculation.

Fish Not determined Aquatic Invertebrates Not determined Not determined Bacteria Not determined Microoganisms Not determined

#### - Environmental Fate -

**Biodegradation** This product contains components which may be persistent in

the environment.

**Bioaccumulation** Adheres to soil – has the potential to bioaccumulate

**Soil Mobility** Adsorbs to soil and has low mobility under normal conditions **Other Effects** Floats on water and produces a sheen – very mobile in the

aquatic environment

# 13. Disposal Considerations

#### **Disposal Considerations**

All disposal practices must be in accordance with local, regional, national, and international regulations. Store material for disposal as indicated in Section 7. Disposal by controlled incineration or recycling may be acceptable – review applicable regulations or regulatory bodies before making disposal decisions.

# **Contaminated Containers or Packaging**

Empty containers are likely to contain flammable vapors or explosive mixtures of vapor and air. Do NOT weld, cut, or grind empty containers. Send to

reconditioner or metal reclaimer if possible. Dispose of in accordance with local, regional, national, and international regulations

## 14. Transportation Information

Description shown may not apply to all shipping situations. Consult applicable shipping codes to determine any additional shipping requirements

**US DOT** 

**UN No** 1993

**UN Proper Name** Combustible Liquid, n.o.s. (contains petroleum distillates,

xylene, 1,2,4-trimethyl benzene, 2-ethylhexyl nitrate)

UN Class 3
Packing Group III
Marine Pollutant Yes

**IMDG** 

**UN No** 1993

**UN Proper Name** Flammable Liquid, n.o.s. (contains petroleum distillates,

xylene, 1,2,4-trimethyl benzene, contains 2-ethylhexyl nitrate)

UN Class 3
Packing Group III
Environmental Hazard Yes

ICAO/IATA

**UN No** 1993

xylene, 1,2,4-trimethyl benzene, contains 2-ethylhexyl nitrate)

UN Class 3 Packing Group III

# 15. Regulatory Information

- Global Chemical Inventories/Regulations -

**USA** All components of this material are on the US TSCA or

exempted

Other TSCA Reg. This product is listed on the TSCA as UVCB (Uknown,

Variable composition, or Biological).

**EPA SNUR** This product contains a substance that has been issued a

non-5(e) Significant New Use Rule. Please see company for

details.

**EU** Components of this product and similar mixtures are

registered under REACH. Consult the European Chemicals Agency regarding REACH registration, reporting, and other legal requirements for kerosene before importing to the EU.

Canada All components of this product are listed on the Canadian

Domestic Substances List (DSL).

Canada SNAc This product contains a substance that is subject of a

Significant New Activity notice under CEPA

Canada WHMIS B3 (combustible liquid); D2A (material causing other toxic

effects, very toxic); D2B (material causing other toxic effects,

toxic).

## - Other U.S. Federal Regulations -

SARA Ext. Haz. Subst. No chemicals in this product are listed on the SARA 302

Extremely Hazardous Substances list.

SARA 311/312 Acute Hazard - YES

Chronic Hazard - YES Fire Hazard - YES

Reactivity Hazard -

**SARA Sect. 313** Benezene, 1,2,4-trimethyl- 16 – 24%

CERCLA Haz. Sub. Benzene (10lbs); xylene (100lbs); toluene (1000lbs);

naphthalene (100lbs); benzo[a]pyrene (1lb); ethylbenzene (1000lbs); cumene (5000lbs); styrene (1000lbs; p-xylene

(100lbs).

CAA Section 112 Contains Naphthalene (CAS # 91-20-3) listed as a hazardous

air pollutant under CAA Section 112.

#### - State Regulations -

**CA Prop 65** Warning: This product contains the following chemicals

known to the State of California to cause cancer, birth defects or other reproductive harm, which would require a warning under the statute: *Cumene*, *naphthalene*, *ethylbenzene*,

toluene, benzene, benzo[a]pyrene

Right to Know Component	Right to Know States
