

CHAMPION SAFETY SOLVENT

Champion Safety Solvent is a safe and effective de-aromatised solvent that can be used for industrial cleaning and product formulation where flash point, toxicity and VOC-requirements must be met.

Features

- High flash point
- Virtually free of aromatics
- Very high chemical stability
- Meets California ARB's requirements for LVP-VOC exempt status

Benefits

- Lower flammability
- Very low toxicity
- Nearly odorless
- Very long product life
- High flexibility for formulation and use

Typical Properties

	4114
Flash Point, ASTM D93	180°F (82°C)
Distillation Range, ASTM D86	406°F – 457°F (208°C – 238°C)
Vapor Pressure @20°C	0.1 mm Hg
Kinematic Viscosity @25°C, ASTM D445	2.18 cSt
Aniline Point, ASTM D611	171°F (77°C)
Density @ 15.6°C, ASTM D4052	6.8 lb/gal

#4114
Effective 01/16
