

## #4153 VACUUM PUMP OIL

CHAMPION VACUUM PUMP OIL is manufactured from the highest quality paraffinic base stocks.

It is designed for use in systems that recirculate the oil as well as non-recirculating systems. It can also be used in systems that have high vacuums, unlike some oils that can only be used in low vacuum systems. It is an extremely stable high viscosity index, low pour point oil that gives maximum protection in both hot and cold conditions.
