

CHAMPION All-Season Diesel Flo®

Champion All-Season Diesel Flo

Champion All-Season Diesel Flo is the unrivaled champion of multi-functional diesel fuel supplements. This premium diesel fuel additive at a 1 gallon to 500 gallon ratio provides excellent cold-flow improvement which lowers the fuel pour point to less than -40°F and can lower the cold-filter plugging point (CFPP) by as much as 40°F. Cold-flow properties of typical fuels can be improved beyond those of 50:50 blends of No.1 and No.2 diesel fuels. Our All-Season Diesel Flo also offers improvements in fuel economy, reduces wear in fuel system parts and upper cylinders, protects against icing and stalling caused by moisture, protects against corrosion even in with typically corrosive biodiesel blends, cleans injectors and intake valves, improves combustion efficiency, improves fuel stability, reduces black smoke emissions, and boosts cetane number of typical low-sulfur and ultra low-sulfur fuels.

Effective and safe for use with all LSD or ULSD fuels including biodiesel blends
