

# Honda / Acura Power Steering Fluid

Full Synthetic Power Steering Fluid formulated to meet the specific performance demands of Honda and Acura power steering systems. Has a higher viscosity than conventional power steering fluids which helps provide superior protection.

## Exceptional Anti-Wear Properties

- Exceptional anti-wear properties that help protect system
- Anti-foam agents help prevent pump cavitation
- Anti-oxidant properties that help stop the formation of sludge
- Excellent protection and performance in cold weather

In 2007, Honda/Acura made changes to their power steering systems which demanded a synthetic fluid with more anti-wear protection, higher viscosity, and better seal compatibility. This fluid is backwards-compatible with older Honda/Acura power steering systems. Universal power steering fluids do not provide the necessary protection for Honda/Acura power steering systems model years 2007 and newer and may lead to seal or pump failure.

**This fluid is suitable for use in Honda/Acura P/N 08206-9002A, Honda PSF-2, Honda PSF Type S, and Honda PSF Type V systems.**

### Directions:

Add to reservoir to meet factory recommended level.

### Order Information:

Part #	Container
4186K	12 fl. oz.

### Typical Values:

Product Code	4186K
MSDS #	500
Specific Gravity @ 15.6 C	0.835
Physical State	Liquid
Flash Point, °C (°F)	225 (437)
Pour Point °C °F	- 40 (- 40)
Viscosity @ 40 °C, 104 °F cSt	12.60
Viscosity @ 100 °C, 211 °F cSt	56.46
Viscosity @100 °C, 211 °F SUS	68.40
Viscosity Index	230
Appearance	Clear, Pale Yellow Liquid

**4186K**  
**Effective 12/11**
