

# TRANSMISSION FLUID SERIES

**CHAMPION TYPE A ATF** is specifically designed for older vehicle automatic transmissions and should be used whenever the manufacturer specifies Type A automatic transmission fluid. It is manufactured using highly refined base oils and additives to reduce oxidation, varnish and sludge and provides quiet performance.

**CHAMPION SUPER GRADE TORQUE FLUID** is our premium 10W-30 synthetic blend manual transmission and transaxle fluid specifically formulated to meet GM specification 9985648 for manual transaxles and transmissions; Chrysler specification MS-9224 for synchromesh manual transmissions; Caterpillar specification TO-4M, and Cat TMS (Transmission Multi Season) fluids. Suitable replacement for General Motors part numbers 1234349, 12345349, 12345577, 12377916 and 1052931, and Chrysler (Mopar) part numbers 4874464 and 4874465 synchromesh manual transmission fluids. Offers outstanding year round performance over extreme temperatures ranging -20°F to 300°F. Superior low speed performance resists sticking, slipping and chattering. Chemically optimized for proper frictional, antiwear and extreme pressure properties necessary in high-speed operations.

## TYPICAL PROPERTIES

	Type A ATF	SG Torque Fluid
<b>SAE Grade</b>	<b>20W</b>	<b>10W30</b>
<b>Product Code</b>	<b>4021</b>	<b>4287</b>
MSDS #	400	400
Gravity API @ 60°F	29.4	31.0
cSt @ 40°C	15.5	55.0
cSt @ 100°C	7.5	9.4
SUS @ 104°F	79	255
SUS @ 210°F	51	57
Viscosity Index	130	155
KRL Shear Stability	-	10%
Pour Point °F	5	-36
Flash Point °F	428	446
Color	Red	Brown
