

CHAMPION FLOZON is a very high quality stable grease recommended for use in automotive, agricultural, and industrial grease applications wherever a pour-type, semi-fluid grease is specified. It is also recommended for use in gear boxes that require an extreme pressure pour-type grease, including lawnmowers, agricultural, and industrial equipment. In addition to meeting extreme pressure requirements it is rust and oxidation inhibited to prevent rust and corrosion, which makes it an excellent all purpose grease. It also has excellent water resistance characteristics. It is shear stable and will not thin out at high temperatures.

#### TYPICAL SPECIFICATIONS

Product Code	4053
NLGI Grade	# 00
Type	Lithium 12 Hydroxy
Base Oil Viscosity:	
cSt @ 100° C	11.8
Color	Dark Amber
Dropping Point ° F	345
ASTM Worked Penetration	420
Timken OK Load #	45
