

#4103

FORM OIL

**CHAMPION FORM OIL** is designed for use on both wood and metal concrete forms. It is a pale non-staining oil which has the ability to release from the concrete leaving a clear, smooth finish free of concrete build-up. It forms a non drying, oily surface which seals the form from the concrete thereby making removal quick and easy. It can also be used to spray concrete truck drums and carriers to facilitate easy clean up. It has rust inhibitors to protect metal forms from rusting when not in use. It can be applied by spraying or with a brush.

#### TYPICAL SPECIFICATIONS

<b>Product Code</b>	<b>4103</b>
Gravity API @ 60° F	30.2
Viscosity :	
cSt @ 40° C	21
cSt @ 100° C	3.7
Pour Point ° F -45	
Flash Point ° F	395
Color	L1.5
