

#4285
LIMITED SLIP
DIFFERENTIAL ADDITIVE

LIMITED SLIP DIFFERENTIAL, AXLE ADDITIVE CONCENTRATE is specially compounded for use in limited slip differentials in both front and rear axles.

- * It minimizes chattering and vibration in plates and clutches.
- * Modifies clutch plate friction.
- * Facilitates applying and releasing of clutch plates.
- * Reduces friction and noise in rear axles.
- * Increases life of limited slip rear axles.

LIMITED SLIP DIFFERENTIAL, AXLE ADDITIVE CONCENTRATE may be used to improve fuel economy and performance, as well as increase service life.

This product may also be used for power steering noise caused by a noisy pump.
